**Potential LEED points from Johnsonite solutions**

Our approach to the environment is called balanced choice. It's a practice that begins with the conviction that everything is interconnected and that every person, project and environment is different and requires different choices. Every decision has an impact down the road - on our customers, their environment and their budget.

Johnsonite is committed to creating systems with long functional lives to minimize resources and energy consumed by alternate materials. We are making the necessary efforts regarding sustainable resilient flooring solutions and compliance with the US Green Building Council's LEED rating program. The following contain all Johnsonite solutions and the ways in which they contribute toward LEED points. The charts have conveniently been separated by New Construction, Commercial Interiors. # Johnsonite®

“FloorScore is a voluntary, independent certification program that tests and certifies hard surface flooring and associated products for acceptable indoor air emissions of Volatile Organic Compounds (VOCs). Products with the FloorScore seal are recognized as contributing to good indoor air quality. The following Johnsonite solutions have FloorScore certifications, which helps you qualify for LEED points under section 4.3 EQ Low-Emitting Materials.”
